

Project Status Update

For Thursday, please submit the following:

1. Two or three sentence description of project topic.
2. One to two sentences each describing at least six pages of your project.
3. Identify photo sources for your project

For an example, please see the attached page:

Project Status Update

Joe Sloan
Oct 2, 2008

Description

My project is the creation of a web page for my 2009 Interim project. This is a collaborative project with Li Qing Kinnison on Chinese cooking and cuisine. The web site will provide supporting material used throughout the project such as information about the project, recipes, assignments, and schedule.

Partial List of Planned Pages

Home Page: This provides a brief description of the project, contact information, and links to the remaining pages.

Description: This page provides a detailed description of the Interim project including activities, costs, and enrollment information.

Readings: This is a general page of sources such as books, magazines, websites that contain information useful for students taking the project.

Language Lessons: Students taking the Interim will learn a few basic phrases of culinary related Chinese. This page will contain the basic lessons and links to audio files for the lessons.

Schedule: This will initially be a blank table with rows corresponding to the class dates and columns for date, activity, assignments, and location. The information will be filled in as the Interim progresses.

Cooking: This will provide links to other pages that provide recipes or cooking tutorials.

Woks: This will be a tutorial describing the theory behind wok cooking, wok selection and seasoning, and wok usage. It will be linked to from the *Cooking* page.

Photo Sources

I plan to take all the pictures used on this site.
