

CS350: Data Structures Class Notes

Week 11, Class 31: Wednesday, November 12, 2008

No Class on Friday

Hash Table tomorrow at 11:30.

First, we talked about the text and how the course will change next semester.

Next, we reviewed graph vocabulary from a discrete math perspective.

Then, we went over the homework from last time.

Finally, we began discussing the implementation of a graph ADT.

Homework for Next Monday: Tree sort project
