

CS350: Data Structures Class Notes

Week 4, Class 12: Friday, September 26, 2008

Announcements

From here on out, for routine homework, you should still email me a copy of any code you write. Feel free to just paste it into the body of the email.

Queues and Deques

ADT and Implementations for each

Examples

Homework for Monday: P96, #9. Assume very simple HTML with no empty tags. You can use the parentheses matching code as a starting point. Please email me your code.
