

# Introduction to Course Studio: Lesson 9

## Featured Content

You can single out of your Course Studio content as **Featured Content** that will be displayed to students when they first enter the online course.

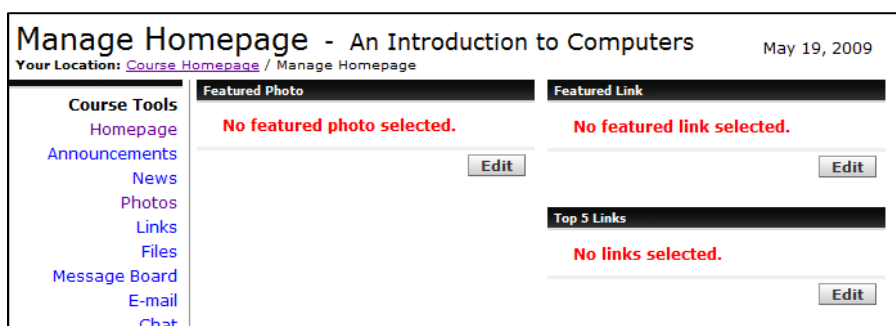

Click on **Manage Homepage** in the **Content Tools** menu.

You have the option of featuring three things:

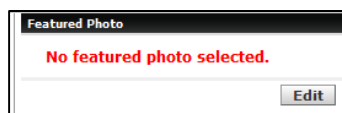

- A photo
- A link
- The top five links

We will do the first two in this lesson.

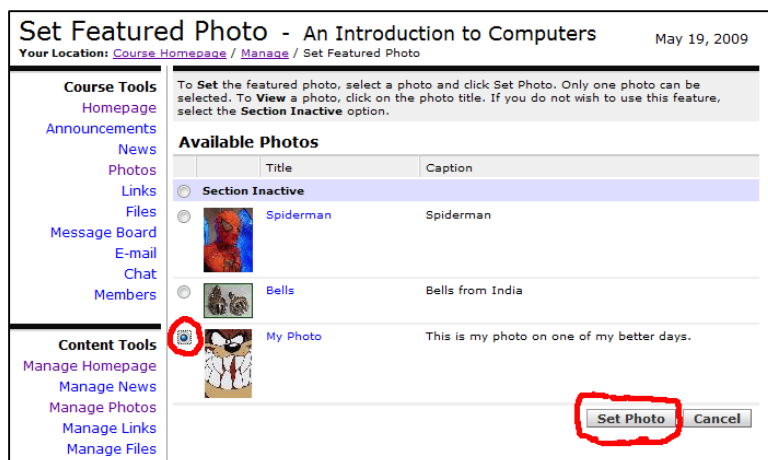

### A Featured Photo

Click on **Edit** under “Featured Photo.”

Click on the checkbox to the left of the photo you want to feature.

Click on **Set Photo**

## A Featured Link

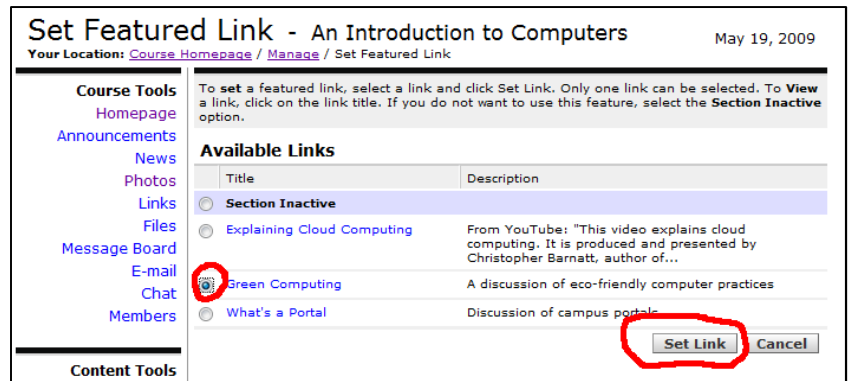

You should see the photo you have chosen in the **Featured Photo** portion of the “Manage Homepage” screen.

To select a **Featured Link**, click on **Edit** in this section.

Click on the checkbox to the left of the link you want to feature.

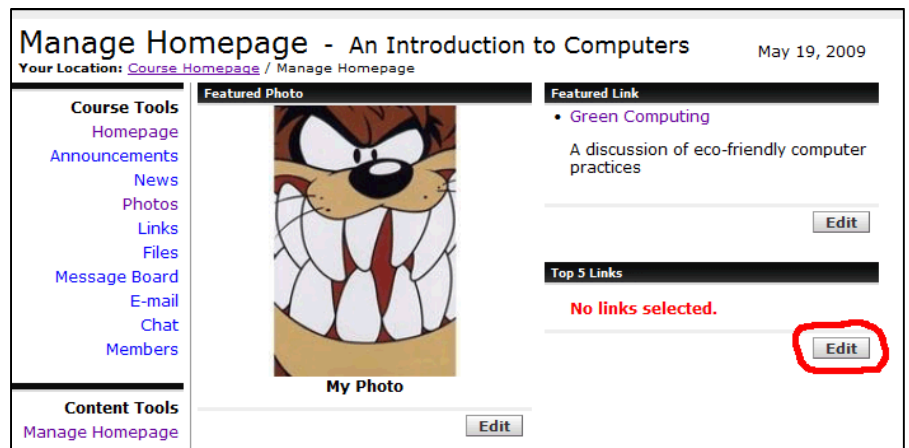

Click on **Set Link**

## Setting a Feature Inactive

We do not want to feature five top links, so we want this section to be inactive.

Click on **Edit** in the **Top 5 Links** section.

**Section Inactive** should be checked.

If it is not, check it.

**Set Top 5 Links - An Introduction to Computers** May 19, 2009  
Your Location: [Course Homepage](#) / [Manage Homepage](#) / Set Top 5 Links

To **Set** the top five links, select up to five links and click Set Links. To **View** a link, click on the link title. If you do not wish to use this feature, select the **Section Inactive** option.

Title	Description
<input checked="" type="checkbox"/> <b>Section Inactive</b>	
<input type="checkbox"/> Explaining Cloud Computing	From YouTube: "This video explains cloud computing. It is produced and presented by Christopher Barnatt, author of..."
<input type="checkbox"/> Green Computing	A discussion of eco-friendly computer practices
<input type="checkbox"/> What's a Portal	Discussion of campus portals
