Topic for first Paper

One persistent debate among historians has been the effect of World War I on Europe. Given what we have read and discussed, how would you assess the impact of “the Great War” on European society and politics?

You need to use as many of the readings as possible, with citations and a few quotes. If you use information from class lecture, you do not have to cite me (take this as “common knowledge”). Your paper should be 5-6 pages long, double-spaced, and in 12-pt. font. It is due April 1, 2005.
